

MEET THE SHORTLIST FOR:

BEST TECHNOLOGY FOR PARTICIPATION

CAP2, COURSE PRO

CoursePro is the market leading sports course software, being used by more than 1500 sites, 40 sports and 4m members worldwide. Seeing issues faced by coaches, instructors and administrators, the brand streamlined them into a fully digital platform, freeing clients from admin, paperwork and hassle in order to focus on their business. CoursePro increases member stays, reduces attrition and increases class size; it helps improve participation in clients courses and

MOTITECH, MOTIVIEW

Motiview encourages older people and dementia sufferers to be more physically active. Using adaptable indoor exercise bikes, cyclists pedal while watching videos from familiar places and childhood memories. Each autumn, Motitech holds the unique championship, The Road Worlds for Seniors, in which participants cycled 52,000 km in 4 weeks during the 2018 competition.

MOTITECH

MYLOCALPITCH

MyLocalPitch is the leading search and booking portal for sports facilities, making it easier for people to participate in sports. MLP works with over 500 venues providing a platform to book online through the website and app. Partnerships with The Football Foundation, the largest sports charity in the UK, to roll out MyLocalPitch's innovative Booking System has helped boost sport participation in many local communities.

SPORTS ENGINEERS, TENNIS AUSTRALIA

Commissioned by Tennis Australia, Sports Engineers' League Management allows administrators to reduce their workload by delegating tasks to players (eg. letting players decide when/where to play, submit-and-confirm score entry process, competition subscription). With 2000+ variations of play, (Tennis) League Manager supports each match format to increase sports participation.

ASB GLASSFLOOR

GlassFloor is a special playing surface made from specially engineered glass which due to its looks and properties, makes it desirable to play on. In the case of the ASB MultiSport floor, LED channels display dedicated sporting lines. The ASB LumiFlex floor is a huge multifunctional monitor which can display any video output desired, increasing the scope for participation and revenue from high-end advertising.
